## DIRECTOR

EMIR EZWAN

Born and residing in Malaysia, Emir's career as a visual artist began after a teenage love affair with the world of graphic novels and music emerging in the mid-Nineties. Though he read for a Bachelor's in Computer and Electronics Engineering, Emir went on to become co-founder of both a design studio Karyalabs (2007) and a fintech startup Billplz (2009). In 2012, Emir co-founded Entropy, specialising in visual storytelling. For both client briefs and self-initiated passion/pet projects, Entropy works closely with talented collaborators in animation, visual effects and film production. His short film RM10 (2016) has won awards at numerous film festivals, including Festival Filem Malaysia, Cinema Grand Prix, Speechless Film Festival, Dakino International Film Festival, and Medina del Campo Film Festival. ROH (SOUL) is his debut feature.
