### LOGLINE

While on a date, Xu Qiu unexpectedly crosses paths with Chen Yuzhou. Both wanting some time alone, they find themselves repeatedly interrupted. Yet over the course of one night, as they experience a series of unique urban encounters, the two gradually open their hearts and share a sincere, unforgettable love.

### SYNOPSIS

One night in Beijing. Xu Qiu, a 35-year-old interior designer, is tricked by a fake profile on a dating app into believing she's been flirting with Chen Yuzhou, a handsome 28-year-old. They decide to meet. Yet the huge city somehow cannot grant their small wish—a suitable place to be together. But the misadventures along the way spark something deeper than a mere date. Then they confess: both have been packaging themselves. And this is Chen Yuzhou's last night in Beijing. Facing the goodbye that awaits after tonight, they still give each other a love that's real and unforgettable.
